

GLIMPSES OF CAMPS

Raising Infertility Awareness and Fulfilling Parenthood Dreams Through Camps

Indira IVF Sales Team, in collaboration with our center heads and referring doctors, is actively organizing OPD Camps throughout India to promote infertility awareness. These camps aim to instill faith, trust, and hope in patients who are striving to achieve their dream of parenthood.

Following are some of the glimpses of OPD camps conducted in the month of May'23 across pan India.

CME/RTM

Keeping Pace with Medical Advancements: Indira IVF Sales Team Drives Continuing Medical Education Initiatives

In today's rapidly evolving world, healthcare professionals are keen to stay updated due to significant changes in medical practices resulting from new technologies, evolving healthcare delivery systems, shifting demographics, and changing disease patterns. To address this need, the B2B Sales Team, in collaboration with IIHPL Doctors, organizes continuing medical education programs (CME). These programs are conducted through online webinars or physical CME sessions in partnership with esteemed organizations like the Indian Medical Association (IMA), the Federation of Obstetric and Gynaecological Societies of India (FOGSI), and regional hospitals, among others.

The CME/RTM initiatives serve as a cornerstone in establishing the scientific image of IIHPL, while also fostering a strong rapport with Key Opinion Leader (KOL) Doctors by positioning ourselves as their knowledge partners.

Following are the some of the glimpses of CME conducted in the month of May'23 across pan India.
